Family Communication Plan

Emergencies can happen at any time. Do you know how to get in touch with your family if you are not together?

Let them know you're OK!

Pick the same person for each family member to contact. It might be easier to reach someone who's out of town.

Text, don't talk!

Unless you are in immediate danger, send a text. Texts often have an easier time getting through during emergencies, and you don't want to tie up phone lines needed by emergency responders (like 911).

Cut this out and keep it somewhere safe like your backpack, school notebook, or wallet. Or input these numbers into your cell phone if you have one.
