January 3, 2018

Operations and Services
Public Weather Services, NWSPD 10-5

PUBLIC GEOGRAPHIC AREAS OF RESPONSIBILITY

NOTICE: This publication is available at: <http://www.nws.noaa.gov/directives/>

OPR: W/AFS21 (A. Horvitz)
Type of Issuance: Routine

Certified by: W/AFS21 (M. Hawkins)

SUMMARY OF REVISIONS: This directive supersedes NWSM 10-507, “*Public Geographic Areas of Responsibility*,” dated November 10, 2009. Changes made to reflect NWS Headquarters reorganization effective April 1, 2015.

Signed
Andrew D. Stern
Director,
Analyze, Forecast and Support Office

Public Geographic Areas of Responsibility

Table of Contents:	Page
1. Introduction.....	4
1.1 Public Zones.....	4
1.2 County Warning and Forecast Areas	4
2. Public Zone and County Warning and Forecast Area Definition/Designation.....	4
2.1 Public Zones.....	4
2.2 County Warning and Forecast Areas	4
3. NWS National Scale Maps	4
3.1 National Weather Service Regions Map (.PDF).....	4
3.2 U.S. Geographic Boundaries Reference Map (.PDF).....	4
4. NWS State Scale Maps.....	4
4.1 Public Zone Forecast Maps by State (.PDF or .JPG).....	4
4.2 County Warning and Forecast Area (CWFA) Maps by State (.PDF or .JPG).....	5
4.3 Federal Information Processing Standards (FIPS) Code Maps by State (.PDF or .JPG).....	5
5. NWS Local and Regional Scale Maps.....	5
5.1 CWFA Maps by NWS Region (.PDF or .JPG).....	5
6. Public Zone Listings by Region (Including FIPS/County Information).....	5
6.1 Alaska Region (.PDF).....	5
6.2 Central Region (.PDF).....	5
6.3 Eastern Region (.PDF).....	5
6.4 Pacific Region (.PDF).....	5
6.5 Southern Region (.PDF).....	5
6.6 Western Region (.PDF).....	5
7. CWFA Listings by Region.....	5
7.1 Alaska Region (.PDF).....	5
7.2 Central Region (.PDF).....	5
7.3 Eastern Region (.PDF).....	5
7.4 Pacific Region (.PDF).....	5
7.5 Southern Region (.PDF).....	5
7.6 Western Region (.PDF).....	5
8. CWFA Areal Coverage Reports (Square Miles).....	5

8.1 Square Miles (sorted alphabetically by WFO and County [.PDF]). 5

8.2 Square Miles (sorted alphabetically by WFO Identification [.XLS]). 5

8.3 Square Miles (sorted by size in descending order [.XLS]). 5

9. Geographic Areas of Responsibility for Other Programs. 6

1. Introduction

This manual provides World Wide Web (WWW) links to public zone maps, public zone listings, County Warning and Forecast Area (CWFA) maps, and CWFA listings. Individual state, territorial, and commonwealth public zone maps are presented. Links to geographic areas of responsibility for other NWS service program areas (i.e., Fire Weather, Hydrologic, and Marine services) are also included.

1.1 Public Zones

Public zone listings are arranged alphabetically within each of the six National Weather Service (NWS) Regions (Alaska, Central, Eastern, Pacific, Southern, and Western) and provide zone-related information including: associated state, zone code, zone name, county name/area designation, Federal Information Processing System (FIPS) code, Weather Forecast Office (WFO) name, and WFO ID.

1.2 County Warning and Forecast Areas

CWFA maps are arranged alphabetically by WFO ID within each of the NWS regions. CWFA listings are arranged alphabetically by WFO, state, and county name within each of the NWS regions. The listings consist of WFO name and office ID, county/parish/independent city name and corresponding state, FIPS code, portion of county in CWFA, square mileage of counties and county parts, and population of the entire county.

2. Public Zone and County Warning and Forecast Area Definition/Designation

2.1 Public Zones

Generally, a zone shape is influenced by topography, political boundaries, climate, population, land use, transportation routes, frequency of hazardous weather, etc.

2.2 County Warning and Forecast Areas

CWFAs are designated by counties/parishes (or parts thereof), and independent cities surrounding a WFO, without regard to state boundaries.

3. NWS National Scale Maps

3.1 [National Weather Service Regions Map \(.PDF\).](#)

3.2 [U.S. Geographic Boundaries Reference Map \(.PDF\).](#)

4. NWS State Scale Maps.
