News of the Day From Across the Globe - SFGate

www.sfgate.com/world/article/News-of-the-Day-From-Across-the-Globe-3948533.php
Published in: US ★ • Text refers to: Kaduna • Date: 2012-10-15

« The Moro Islamic Liberation Front's decades-long rebellion has killed tens of thousands of people and held back progress in the south, where Muslims make up a sizable minority. ... The Kremlin eased stiff election laws in response to major protests against Putin's rule last winter, but introduced new restrictions after the demonstrations abated. ... The Moro Islamic Liberation Front's decades-long rebellion has killed tens of thousands of people and held back progress in the south, where Muslims make up a sizable minority. »

NOAA MediaWatch - <http://noaa.weblyzard.com/>

The screenshot displays the NOAA MediaWatch interface, which is a web-based tool for monitoring and analyzing media content. The interface is organized into several main sections:

- Header:** NOAA National Oceanic and Atmospheric Administration logo and navigation menu (News, Blogs, Social Media, Press Releases, NOAA Sites, Partners, NAPA).
- Left Sidebar (TOPICS and ASSOCIATIONS):** Lists various categories and their associated counts. Topics include Climate (367), Lubchenco (33), NOAA (631), Oceans (686), Satellites (228), and Weather (1659). Associations include mdweather (36), maryland weather (44), baltimore (94), isaac (939), eric berger (70), ben cubby (14), nsw (17), david wroe (13), sea ice (65), maryland chesapeake bay (9), human-caused (13), thunderstorm safety tips (26), weather photographs pictures (21), south winds (18), and ams (10).
- Frequency Chart (Trend Charts):** A line graph showing the frequency of various topics over time (Aug 20 to Oct 15). A tooltip highlights a peak for "Weather (415)" on Aug 24 - Aug 30, with a sentiment score of -9.19 (σ 17.0).
- Geo Map:** A world map showing the location of a specific event, marked with a star in the Atlantic Ocean.
- Document Summary (Content View):** Displays a news article titled "REBELLION | MUSLIM | LIBERATION News of the Day From Across the Globe - SFGate". The article discusses the Moro Islamic Liberation Front's rebellion in the Philippines.
- Tag Cloud:** A visualization of keywords extracted from the content, with "morning" and "mph" being prominent.
- Keywords:** A network graph showing relationships between keywords, with "isaac's" and "isaac" being central nodes.
- Similar Documents:** A list of related news articles, such as "Weather News | U.S. Weather | International Weather" and "Weather: Orlando weather - Orlando Sentinel".

NOAA MediaWatch - <http://noaa.weblyzard.com/>

My MediaWatch objectives

- Identify and monitor **major topics associated** with NOAA and climate in news media, blogs, social media, and NOAA's own web domain
- Measure **attention** and **sentiment** (positive vs negative) of articles about these topics
- Visualize **semantic relationships** and **trends** by media type and individual publications; investigate the drivers and impacts of these trends
- Create **shared meaning** and **improve understanding** of how others perceive NOAA and climate science, as well as other climate-related topics
 - i.e., how often and how accurately is NOAA-produced information being represented in online media?
