

Procedure to Ensure Time Announcement Message Does Not Broadcast in Daylight Savings Time Year Round

1. Click **Transmitters** and click **Transmitter Configure**. The *Transmitter Configure* window is displayed.
2. Click the desired transmitter, and the *transmitter configure parameters* for that transmitter are displayed.
3. Click the **Time Zone** button and change it to any different time zone.
4. Click the **Save** hot key.
5. When the system has completed the re-configuration process, click the **Time Zone** button again and re-select the original time zone.
6. Click the **Save** hot key.
7. Repeat steps 2 through 6 for each transmitter, as needed.
8. Click the **Exit** hot key to close the window.
