

# Examples of PowerPoint web weather

ways to highlight the benefits of considering an alternative meteorological data source for NWS offices who are currently utilizing PowerPoint in their presentations.

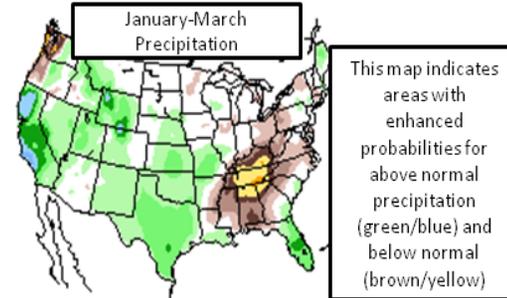

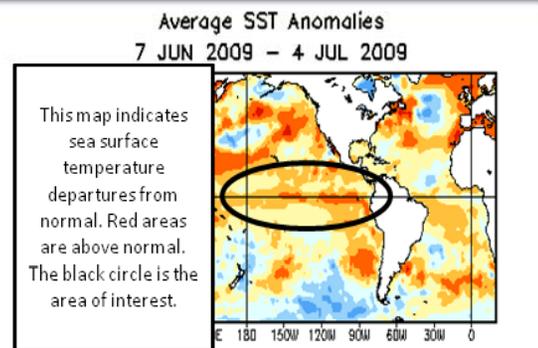

## W SHOWERS LIKELY TODAY

**FOR TODAY:**  
EXPECT COOLER  
TEMPERATURES TODAY  
WITH CHANCES FOR  
SHOWERS OF RAIN AND  
SNOW.

**ON WEDNESDAY:**  
HIGH PRESSURE WILL  
MOVE INTO THE  
SOUTHWEST ALLOWING  
DRIER WEATHER TO  
RETURN WITH COOL  
NORTHERLY WINDS.

## Latest on El Niño

### El Niño Developing

Sea surface temperatures (SSTs) in the equatorial east Pacific Ocean are currently warmer than usual. This is the signal to forecasters that an El Niño is developing.

This El Niño is expected to continue to mature through the summer and fall season and may bring enhanced precipitation opportunities to the area this winter.
