After October 15, sites will no longer issue VTEC for Hydrology products, indicated by the ~~red strikeout~~. However, OT&E sites can continue to issue VTEC. Sites should turn on VTEC in "E" mode for WBC and "X" mode for all other products. See www.nws.noaa.gov/os/vtec/.

Important Note: Informational Marine Weather Statements (MWS) for non-severe weather events are to be created and issued by WWA.
