NWS FOCUS

On Thursday, March 25, the NWS Office of Science and Technology will conduct a National AWIPS II Roundtable Teleconference.

This teleconference will be an opportunity for Weather Forecast Office (WFO) staff to hear the latest status of the AWIPS Technology Infusion (AWIPS II) project from the Office of Science and Technology Director, as well as learn of upcoming AWIPS II milestones.

There are many conflicting messages reverberating in the field about the stability/status of the program. Attendees will have an opportunity to ask tough questions of the Director. If you are unable to attend, a transcript and recording will be posted online.

Please mark your calendar and plan to join us.
