

AWIPS II Topic of the Week -- National AWIPS Roundtable Follow-Up

All,

On Thursday, March 25th, the Office of Science & Technology (OST) held the National AWIPS Round Table Teleconference, chaired by Donald Berchoff, OST Office Director. The ninety minute teleconference offered an opportunity for the field office staff (i.e. WFO, RFC, CWSU, Nat'l Center etc.) to hear the latest status of the AWIPS Technology Infusion (AWIPS II) project, as well as learn of upcoming AWIPS II milestones. The audio recording and transcript of the discussion are posted on the presentations page within the AWIPS Tech Infusion web site (<http://www.nws.noaa.gov/ost/SEC/AE/index.htm>). We received some emailed questions and once responses are available, we will post them to the presentations page as well.

Many thanks to Don Berchoff and the AWIPS Program Team for reassuring everyone that OST's priority is to deliver AWIPS II to the field with the least amount of pain possible, without sacrificing the quality of the AWIPS software. SEC encourages everyone to continue viewing and working with the new software. As always, we welcome your feedback and collaboration.
