- (NP) Dan St. Jean
- (P) Jeff Medlin
- (P) Ken Falk
- (P) Bill Ward
- (P) Lee Anderson (facilitator)

ACTIONS

Most actions are closed with the exception of DFP and the longer term items.

Round Robin Summary

Discussion occurred about the RTMA installations at a few offices. The team was informed that they could provide comments to the DSPAC about the QPF white paper. They briefly talked about the latest on the GMOS survey. It was sent to three offices.

A brief update on the RTMA project activities at HQ was provided by NWS. The DNG (Downscaled NWP grids) project has gone through OSIP Gate 1.

DFP writing assignments were complete. Any further ideas on that topic should be sent to the team leaders. The next meeting is on 4/11/06.
