

ISST Call Summary
May 1, 2006

Team members present (P) and not present (NP):

(P) Greg Mann (team leader)
(P) Jim Nelson (backup team leader)
(P) Karl Jungbluth
(P) Tom Salem
(P) Steve Keighton
(P) Dan St. Jean
(NP) Mike Staudenmeier
(NP) Jeffrey Medlin
(P) Ken Falk
(NP) Bill Ward
(P) Lee Anderson (facilitator)

1. Round Robin

Most members had information to report about the RTMA. Steve Keighton informed the group that this was his last call. Another SOO from SC from Eastern Region will take over his position. One member reported that he has not seen many GMOS surveys yet. One member's office installed the new smart tool about Prism.

2. Action Tracker

Lee went through the list and will update the action tracker list in the web site.

3. RTMA

Discussion occurred about some of the local RTMA cases viewed by the team. Local cool biases have been seen. The team leader will send information about RTMA file manipulation and related information to the team.

4. QPF

The team talked about QPF issues and the white paper recently presented at the DS PAC meeting. The team also compared their definition for QPF with the white paper contents. The team leader will inform the rest of the team of the developments with this topic.

Next meeting is on 5/8/06.
