URGENT - FIRE WEATHER MESSAGE
National Weather Service Honolulu HI
855 AM HST Tue Dec 11 2012

...Red Flag Warning for leeward areas due to strong and gusty winds and low humidity...

.Prevailing high pressure will keep strong winds and a drier than normal airmass across the area with Red Flag conditions developing over leeward areas this afternoon. The Red Flag Warning has been extended to cover more leeward areas of the main Hawaiian Islands.

...Red Flag Warning in effect until 6 PM HST this evening for strong winds and low relative humidity for mainly leeward areas...

The National Weather Service in Honolulu has issued a Red Flag Warning for strong winds and low relative humidity, which is in effect until 6 PM HST this evening.

- * AFFECTED AREA...Leeward areas of Oahu, Lanai, Maui and the Big Island.
- * WINDS...East 15 to 25 mph with gusts up to 35 mph.
- * RELATIVE HUMIDITY...As low as 45 percent.
- * TIMING...This afternoon.

PRECAUTIONARY/PREPAREDNESS ACTIONS...

A Red Flag Warning means that critical fire weather conditions are either occurring now, or will shortly. A combination of strong winds, low relative humidity, and warm temperatures can contribute to rapid fire growth potential.
