

***NATIONAL WEATHER SERVICE POLICY DIRECTIVE 10-8
AUGUST 30, 2004***

Operations and Services

AVIATION WEATHER SERVICES

NOTICE: This publication is available at: <http://www.nws.noaa.gov/directives/>.

OPR: W/OS23 (M. Andrews)

Certified by: W/OS (G. Mandt)

Type of Issuance: Routine

SUMMARY OF REVISIONS: Supersedes NWS Policy Directive 10-8, dated August 28, 2003. The only change made is in section 2.6, where reference to Weather Forecast Office (WFO) Guam as a Meteorological Watch Office has been removed. Effective September 28, 2004, WFO Guam no longer has this designation.

- 1.** The objectives of the National Weather Service (NWS) Aviation Weather Services Program (AWSP) are to provide quality weather forecast information and services to the aviation community for the protection of life and property, and to increase the efficiency of the National Airspace System.
- 2.** This directive assigns the following authorities and responsibilities:
 - 2.1** The Office of Climate, Water, and Weather Services (OCWWS) is responsible for:
 - a. Preparing policy and procedure directives.
 - b. Managing standard system programs.
 - c. Consolidating and analyzing performance and effectiveness indicators.
 - 2.2** NWS regional headquarters offices are responsible for:
 - a. Ensuring field offices are organized, trained, and equipped to fulfill AWSP obligations.
 - a. Providing technical assistance to field offices.
 - b. Overseeing regional aviation weather service outreach efforts.
 - c. Evaluating performance and effectiveness of the AWSP within their region.

- 2.3** Weather Forecast Offices (WFO) are responsible for:
- a. Providing weather forecast information and services for aviation operations across their area of responsibility.
 - b. Preparing and maintaining an annual aviation operating plan describing specific outreach efforts, such as contacts, meetings, and familiarization visits conducted with local aviation product users. This plan should be a part of the WFO's station operating plan.
- 2.4** Center Weather Service Units are responsible for providing meteorological information and services consistent with Federal Aviation Administration (FAA) agreements and applicable aviation procedural directives.
- 2.5** The Spaceflight Meteorology Group is responsible for providing worldwide weather support, based on specific landing weather flight rules for shuttle and Soyuz operations, to the National Aeronautics and Space Administration's Human Spaceflight effort at the Johnson Space Center.
- 2.6** The Aviation Weather Center (AWC), Alaska Aviation Weather Unit, and WFO Honolulu, as Meteorological Watch Offices for the International Civil Aeronautical Organization, are responsible for providing enroute and terminal domestic and international forecast information and services consistent with relevant international and FAA agreements.
- 2.7** NWS meteorologists at the FAA Academy are responsible for providing aviation weather training to FAA personnel.
- 2.8** The National Centers for Environmental Prediction are responsible for producing numerical weather prediction guidance, outlooks, and discussions to support the AWSP and the Washington World Area Forecast Center.
- 2.9** All NWS AWSP components will ensure aviation services and products are standardized and consistent.
- 3.** The NWS measures the effectiveness of the AWSP using: ceiling/visibility forecast thresholds; and thunderstorm forecast criteria of probability of detection and false alarm rates.
- 4.** Procedural directives will be issued to implement this policy as needed and determined by the Director, OCWWS.

SIGNED BY August 16, 2004
Brigadier General David L. Johnson, USAF, Ret. Date
Assistant Administrator for Weather Services
