Purpose

Technique SACSNOW sets whether the states of Operations SAC-SMA and SNOW-17 should be output to files.

The files are written to the directory $HOME/.ifp_files/sac_snow in a binary format that the SAC and SNOW state display routines can read.

Valid values are NO (0) and YES (1).

The Global default is NO (0).

This Technique is Nonuniversal.

Form of Input

SACSNOW(integer)

where integer is 0 or 1 specifying whether SACSNOW is off or on

Example

SACSNOW(1)

The states of Operations SAC-SMA and SNOW-17 will be output to files.
