

NOTICE TO MARINER

INMARSAT I-3 TO I-4 MIGRATION

THE INTERNATIONAL MARITIME ORGANIZATION (IMO), THE INTERNATIONAL HYDROGRAPHIC ORGANIZATION (IHO), AND THE WORLD METEOROLOGICAL ORGANIZATION (WMO) INFORM THE MARITIME COMMUNITY OF THE PLANNED INMARSAT I-3 TO I-4 SATELLITE MIGRATION IN 2018.

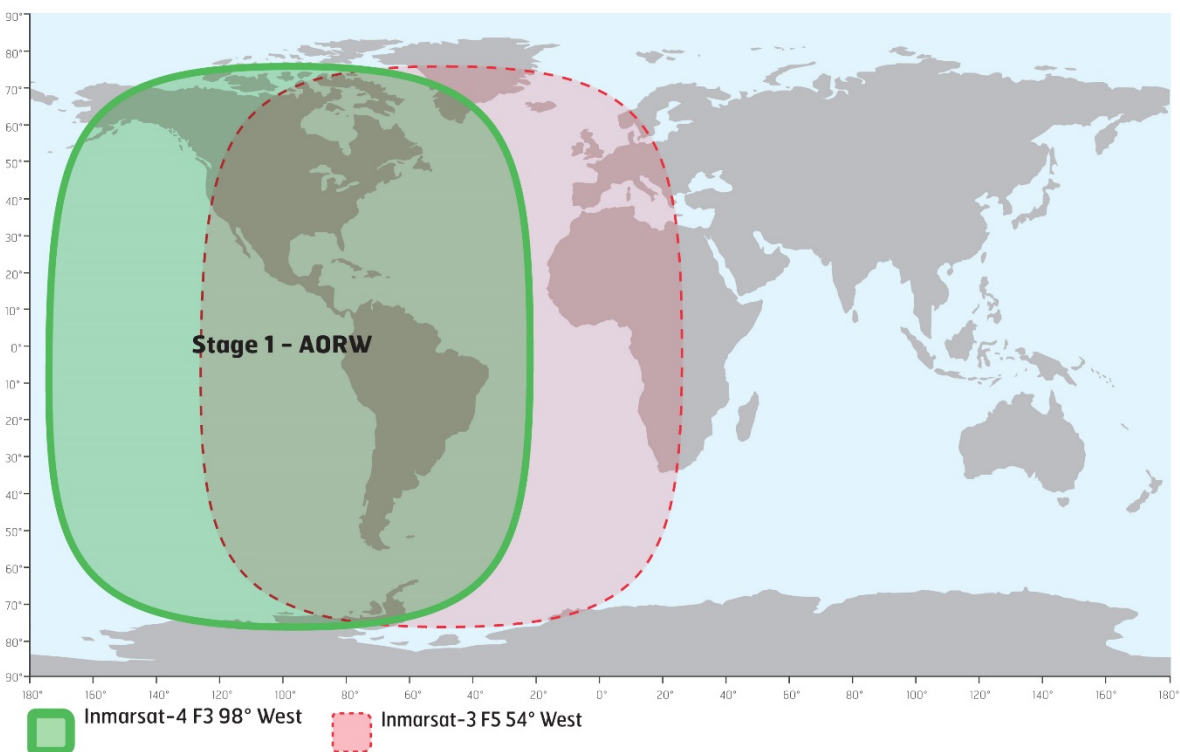

INMARSAT I-3 TO I-4 MIGRATION

The IMO, IHO and the WMO inform the maritime community of the planned Inmarsat I-3 to I-4 satellite migration in 2018. The services specific to the maritime sector include Inmarsat-C, Mini C, and Fleet77. These services have operated successfully over the I-4 satellites previously and therefore minimal service impact is anticipated. Inmarsat worked closely with Land Earth Station operators (LESOs), terminal manufacturers, Administrations that provide Maritime Safety Information (MSI) and other stakeholders during the extensive preparation of the migration plan. Safety services will be restored first with the highest priority. The migration will have minimal impact on seafarers.

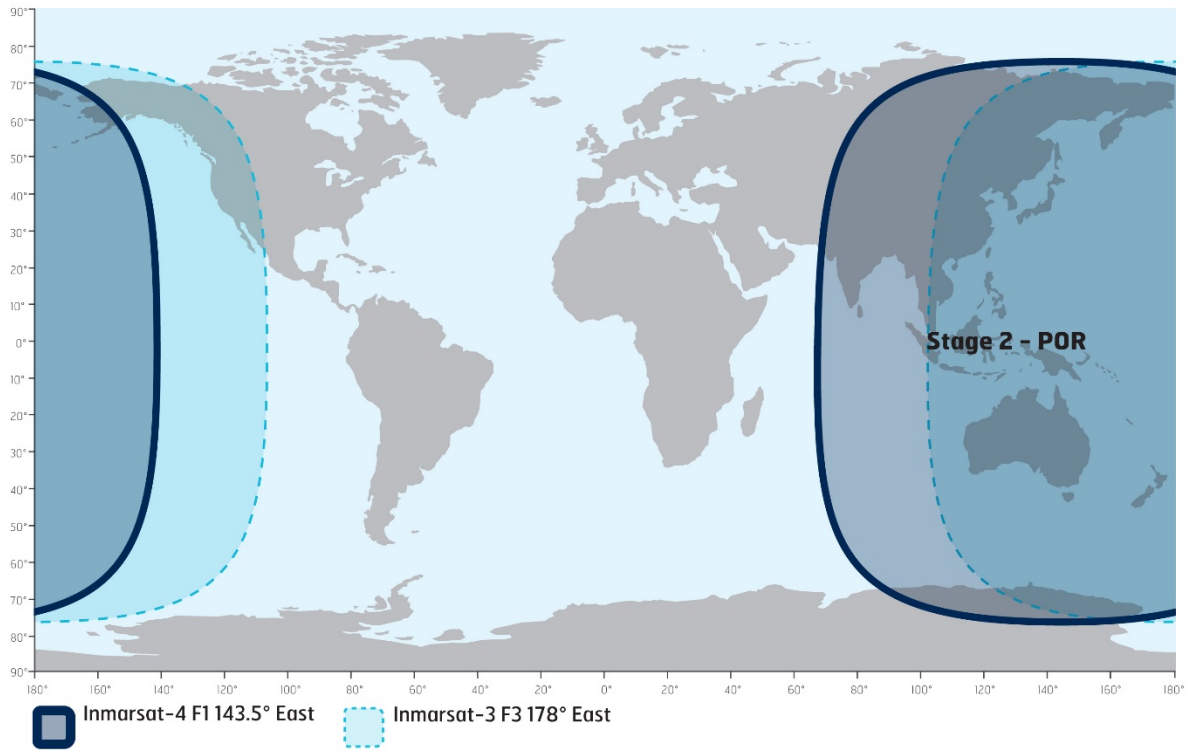

The migration will start in April 2018 and take approximately 9 months to complete. The approach of Inmarsat is to migrate these services satellite-by-satellite as illustrated below.
